## DIGITEC SYSTEMS

Digitec Systems® is in the business of innovation - Since its inception in 1992, Digitec has been developing and selling high-value EMBEDDED PRODUCTS and SYSTEMS & SOLUTIONS. Our key value proposition is to be provide **reliable** and **high availability** monitoring and **GSM/GPRS** based security solutions.

Keeping in pace with technological needs of the day, we have the following solutions available:

- Wireless(GSM based) Alarm Systems

- SCADA/Level Gauging

- RFID Security

- Fixed Wireless Terminals

- Vehicle/Personnel tracking

- Car/Bike Security Systems with Location Based Sensing(LBS)

- Theft Anti-Jammer Devices

- Biometric Data Registration and Logging Systems

## PRODUCT EXECUTIVE SUMMARY

**Smart Verify**, is an **intuitive** and **automated** platform for logging and tracking user activity i.e. entry and exit into hospitals, hotels, government offices and other public venues that face daily heavy personnel traffic.

Smart Verify Automates the entire visitor registration by reading the information stored on the NIC card by a Barcode reader as such no manual entry is required. A click of a button does it All, Name, NIC Number, Address, time and even Picture (optional) is saved on the computer. Unlike other pieces of identification, the barcode on an NIC cannot be faked and **Smart Verify** leverages this feature to provide seamless data entry through a user-friendly touch interface.

This appliance provides generative daily, weekly, monthly log reports with detailed attendance results which may be exported into Microsoft Excel for advanced statistical reporting that will provide admins key insights into attendance behavior and highlight suspicious user activity

The records are also accessible through a web portal and may be exported to an external memory device located on the **Smart Verify** appliance

## BENEFITS

- *Timed Log of Personnel Entry & Exit*

- *Local database with report generation capabilities*

- *Web based portal for database fault tolerance and remote monitoring*

- *Generative Reports. Printable and Easily Accessible*

- *Built-in barcode scanner*

- *One time purchase, with comprehensive support plans*
