

CAR AND BIKE SECURITY SYSTEMS

Car & Bike Security Systems

Security System for Vehicle

It is simple yet power security system that secure your vehicle from unauthorized access, the system employs the latest RFID (Radio Frequency identification) technology. Each RFID Card has a unique number making the system fool proof.

WORKING :

The working of the system is very simple; as you start your vehicle you have to show the card with in 30 secs failing which the system will beep.

5 times as a warning and if the card is still not shown it will lock the vehicle. The vehicle can be unlocked by showing the card anytime.
