

THIS IS THE SECURITY YOU ARE SEARCHING FOR

Remotely monitor your home/office for intrusion when you are not around.

Stay live with the android application **WISEC** - lets you monitor the live status of all sensors.

FEATURES

- Low power consumption
- No running cost
- Easy to use
- Ultra-portable
- Wifi based and android based

Key Features

NORMAL MODE:

- Monitor status of two input devices (E.g. door-contact, motion sensor etc.)
- Control two output devices (E.g. alarm/hooter)
- ARM/DISARM feature

ADVANCE MODE:

- Monitor status of as many devices as you want (e.g. door-contact, motion sensor, smoke detector and much more)
- Control multiple output devices
- ARM/DISARM feature
