G-LINK

GSM Hot Line Device

Cost Effective and Reliable device meant
for shops/home and vehicles

GLink is a GSM Hot Line Device. It is a cost effective and reliable device meant for shops/home and vehicles. It serves two very important purpose one is Low cost communication and the other is security. The Device has the following features.

• **Unlimited Calls to fixed number using Friend and Family (FnF) Packages.** All mobile operators are offering unlimited calls to fixed numbers on the same network the rates vary from Rs 200 to 300/month.

• **No chance of over billing.** Since the device have only two programmed numbers so it can only be used to call only those (FnF) numbers.

• **Free Incoming Calls**. The Phone can receive incoming calls from anyone.

• **Door Open Alert.** The Device can be set in Arm state by SMS command.It will generate SMS alert if the Door is open when in Arm condition.SMS command can Disarm the device.

• **LBS Location.** This is useful for use inside a vehicles .The device will reply to SMS command with the Mobile Base station ID located near the device. A Web link that show the Mobile base station on Google map is also sent.

• **Panic Switch.** A push button can be pressed in case of trouble. It will send a Panic (SOS) message to the programmed numbers. Upto Five Number can be saved to receiver Panic or Door Open Alerts.
